Social Science in Rome

What's this program about?

Rome is the "Eternal City," a magic place to which historically, all roads led. She gave birth to many of our social and civic values, has been a center of the arts, and is a focus of the Christian faith.

The visiting student will be able to see how three epochs - the ancient, the Renaissance, and the modern - are juxtaposed to give Rome its intriguing and effervescent character. Rome is a unique metropolis that has successfully restored and adapted its ancient and priceless architecture and art to the rigorous demands of a modern culture while maintaining a warm, exhilarating and friendly downtown environment of piazzas and pizzerias. The visitor feels instantly mesmerized and embraced.
